

## SPC CLICK + WITH EVA PAD

SIMPLE INSTALLATION, ULTRA-DURABLE  
& WATERPROOF

MAXX Floors™ SPC Click+, with an integrated 1 mm EVA Pad, gives you the look, of a wood floor with the light-weight durability of composite plastic. And, because it's rigid core hides subfloor imperfections, WSPC products can go over most subfloors without additional preparation.

SPC Click+ flooring features 3L Triplelock and Click 4U, a patented technology that substantially improves and simplifies the installation and makes our product virtually waterproof. This means up to 30% faster installation time than basis angle/angle systems. No special tools needed.
